How to Change Reddit Username

October 30, 2021

Reddit is one of the most common social media sites on the internet. Because it exists in its niche, many people are confused about what it is. Your email address may have been used to create your account. It entails either creating a username or logging in with your Google Account or Apple ID. Your username on Reddit is unique and appears in every post you make.

Reddit has decided to make a few tweaks to its website to maintain its high-quality status. Perhaps you'd want to learn how to Change Reddit username. There are many questions about this platform, but we'll concentrate on the login and display names.

Table of Contents

What Is A Reddit Account Display Name?

The name that is visible to the general public on Reddit is known as a display name. It is used in place of your username to keep you hidden from the general public. Unlike your username, you can alter your display name at any moment.

Can You Change Reddit Username?

During the account registration procedure, you chose your Reddit username. It is **impossible** to change your Reddit username in the future. It is linked to your verification information. It is a critical step in preventing cybercrime like fraud and account impersonation.

The only alternative is to deactivate your current account and start a new one. Existing Reddit posts made with the current username would not be erased. You will fail access to your current account, and it will be erased if you deactivate it. On those posts, the username would be replaced with the "deleted" tag.

You should be aware that all of your karma points linked with your existing account will be deleted. There is no way to assign them to your new account at this time, even if you contact customer service.

Does It Help To Change Reddit Username?

Because you can't change your Reddit username, some people suggest changing your display name. It is a poorly implemented approach that does little to help. Only your Reddit display name, not your username, displays on your profile.

You are free to update it as often as you wish. Because it doesn't disguise or replace your Reddit username, this feature is pointless. Your username is still visible on your profile and associated with your posts.

Change My Display Name On Apple Account

You've already created an account and chosen a username. Also, if you've had a Reddit assigned name for a while, you won't be able to alter it. At that moment, you can simply change your display name. In this scenario, you can create a new account and choose a different username.

Follow these simple steps if you're an apple account user who wants to alter your Reddit username:

- On your iPhone, open the Reddit app and register or log in to your new account.
- After clicking on your avatar, select "My Profile" from the drop-down menu. The account must be relatively new and have a Reddit-assigned name.
- Reddit will ask if you want to keep your randomly allocated username or change it to anything else. Select "Change Username."
- Fill in the username you'd want to use. You won't be capable of making changes afterward because this is a one-time action.
- In the upper right-hand corner, tap "Next."
- Reddit will request if you wish to keep that username indefinitely. Select "Save Username."
- Your Apple account username has now been changed.

When you sign up for a Reddit account, you are not asked your age. Only your settings page allows you to adjust the NSFW option. You cannot change your Birthday on Reddit.

- On your computer, sign in to your Reddit account.
- In the top right-hand corner, click on your avatar.

- Go to the “User Settings” section of the website.
- Scroll down to the “Profile category” sub-section in the “Profile” section.

PROFILE CATEGORY

NSFW

This content is NSFW (may contain nudity, pornography, profanity or inappropriate content for those under 18)

- Toggle off the NSFW option for underage users. Toggle it on for users over the age of 18.

SWITCH ACCOUNT TO SFW

If your account contains NSFW content (contains nudity, pornography, profanity or inappropriate content for those under 18) and it's not set to NSFW, this will result in actions up to and including suspension of your account.

How to Change Your Flair on Reddit?

Have you created a flair for a specific post on Reddit? Do you want to alter it now? It is a straightforward procedure. Keep in mind, though, that each subreddit’s flairs are unique. Some subreddits don’t enable you to change or add flairs.

- Visit the subreddit where people can alter their flair.
- In the sidebar, look for your username.
- Next to your username, select the “Change flair” option.
- There will be a new choices window appearing. After that, you can alter your flair for that particular subreddit.

Conclusion

There is no way to alter your Reddit username without losing karma and starting over. Don’t use any words or phrases in your username that you don’t want other people to associate with your real name. Ensure you acquire a sound Reddit username. So, you don’t need to change your Reddit username again in the future.

FAQs

Is There Any Way To Change Reddit Username?

Only by registering a new account with a new username can you alter your Reddit username. You’ll have to start over with new posts and activities if you create a new account.

Can I Hide My Username On Reddit?

Install the browser extension Reddit Enhancement Suite (RES). Then go to Settings, Account, Username Hider, and turn it on. The following CSS snippet will hide your username if you’re using custom CSS in your browser.

What Is Reddit karma?

Upvote and downvote buttons are located next to each Reddit post or comment. Reddit uses karma to display users the most excellent possible content. Comments with many upvotes and posts with a lot of points appear at the top of the page. As a result, more people will view and upvote them.

How Do I Switch Accounts On Reddit?

Add alternate accounts to the account switcher, then reload the page. The user bar is located to the right of your username at the top right of your screen. Either a down arrow or a Reddit alien will appear. To change, click that.
